Maxtek Components Signs New Representative Firms

BEAVERTON, Ore., August 25, 2005 — Maxtek Components Corporation, a Tektronix, Inc. company (NYSE: TEK) and a custom microelectronics assembly and test service provider, today announced formal representation agreements with Dura Sales of Southern California, Hi-Peak Technical Sales, Schoenduve Corporation, and Somers-Stanton Incorporated, manufacturer's representative firms in Southern California, New England, Northern California and the Midwest respectively.

"Maxtek's success as a custom microelectronics service provider is largely attributable to our deep technical experience and our ability to become an extension of our customers' development teams", said Jeff Dick, Director of Business Development, Maxtek Components. "When evaluating potential partners, technical expertise and a spirit of teamwork are at the top of the list of our selection criteria. Our selection of Dura Sales, Hi-Peak, Schoenduve and Somers-Stanton as Maxtek representatives is the result of this evaluation process and they are welcome additions to the Maxtek team."

About Dura Sales of Southern California

Dura Sales of Southern California is a manufacturer's sales representative organization specializing in RF, microwave and optical devices, components and manufacturing services. For additional information on Dura Sales, visit www.durasocal.com.

About Hi-Peak Technical Sales

Hi-Peak, a New Hampshire-based manufacturers' representative company, was founded in 1993 with the merger of Higgins Microwave and Peak Associates (originally TMR Associates). Staffed entirely by experienced RF engineers, Hi-Peak is focused on providing RF, microwave and optical system level solutions to our customers. For additional information on Hi-Peak Technical Sales, visit www.hi-peak.com.

About Schoenduve Corporation

Since 1986, Schoenduve Corporation has provided sales representation, engineering design services and marketing consulting services for companies on the leading edge of technology in the communications, medical, space, and defense industries. Primarily focused on northern California and Nevada, Schoenduve Corporation's technical depth

and understanding of developing market trends enables value creation for both tier one firms and venture-backed companies. For additional information on Schoenduve Corp., visit www.schoenduve.com.

About Somers-Stanton Incorporated

Originally founded in 1961 as the L.W. Somers Company, Somers-Stanton, Inc. is a Certified Professional Manufacturers' Representative (CPMR) firm focused on meeting our customers' needs for value-added, cost-effective solutions. Somers-Stanton serves the Midwest market and offers a variety of passive and electromechanical components, Automated Test Equipment (ATE) related products and contract manufacturing services to manufacturers employing electrical and electronic content in their products. For additional information on Somers-Stanton, visit www.somers-stanton.com.

About Maxtek
